# M-Term 2022

## Why Do We Have M-Term? It's All About The Students!

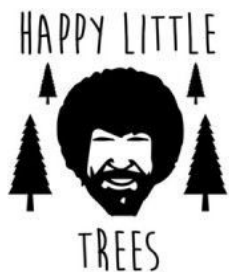

*Children are diverse, but often times school programs by nature are not very flexible. It's important for schools today to develop programs for hands-on learning and creativity. God's gifts to children take on forms that do not always reveal themselves in the normal classroom setting.*

Students have so many options in today's world. It is our desire to allow them to discover their gifts and abilities and grow those talents for the kingdom of God. While we maintain our commitment to a traditional education, we commit two weeks out of the year to explore new opportunities, cultivate talents, and get in better physical shape, all the while enjoying fellowship with classmates. These electives allow HCA to add new dimensions to our students' educational experience. Please read about the opportunities in the brochure.
